DESN275 Individual Project
Please identify a project that is interesting and useful and possibly new to you, and could be included in your ***portfolio***. It should represent about 2 hours of work.

Statement of Work:

- **Purpose**: Why is this project important to ***you***?

- **Scope of Work**: Describe the work that must be done in some detail. For instance: Length? Number of tracks involved? Kinds of processing needed? Quality as compared to existing commercial examples?

Examples
• Sound track for a short film project.
• Studio recording and editing of an artist (1 or 2 songs?).
• Live recording and editing of an artist (1 or 2 songs?).
• Creation of a workout or cheer soundtrack or similar product.
• Creation of a radio show.
• Creation of a set of sounds for a game.
• Book Report – turn in *with* the book. And I have some to loan. Topics could include recording music on location, mixing and multitracking, mastering, sound design for film, music technology, or learning about a particular DAW such as Pro-T ools.
• Or propose something comparable!
