

Please identify a personal project that is interesting and useful and new to you, and could be included in your *portfolio*. Then submit a brief **Statement of Work**.

- **Purpose:** Why is this project important to you?
- **Scope of Work:** Describe the work that must be done in as much detail as is known, and specifies the hardware and software involved. This would probably take about 4 hours to complete.
- **Location of Work:** If you want to suspend yourself on ropes under the Monroe St Bridge recording night owls, I won't approve it.
- **Period of Performance:** Between now and the last day of class.
- **Deliverables Schedule:** It will be an MP3 delivered to your class folder by July 20, unless we agree to something else.
- **Applicable Standards:** Industry specific standards will be used unless a relaxed standard is appropriate and agreed to.
- **Acceptance Criteria:** Your grade will be based on your standards.

Possible Options?

- Sound track for a short film project.
- Studio recording and editing of an artist (2 songs?).
- Live recording and editing of an artist (2 songs?)
- Creation of a workout or cheer soundtrack or similar product.
- Creation of a radio show.
- Book Report – (depends on the book)
- Propose something comparable!
